

# WeedGo-series Weedgo! 2

## £395

Protective brush guard

Strimmer Head Connection

Steel and nylon replacement brushes

Weedgo brush head

Weedgo 2 steel brush

**This product will fit brushcutter with**  
**Head Connection:** 20/25.4mm  
**Shaft Diameter:** 26/28/30/32/36/38mm  
**Engine Size:** 25 cc minimum  
**Output Shaft Power:** 1.36–2.7 hp (1.0–2.0 kW)

The WeedGo! is designed for removal in smaller areas and around tricky obstacles like benches or railings, which are difficult to access with a larger weedbrush. It is really easy to carry as an extra tool with your brushcutter, taking up little extra space.

The Weedgo! Two is a weedbrush attachment that fits to your brushcutter or strimmer. The weedbrush allows clearance of moss and weeds from hard surfaces such as tarmac or block paving.

Operating the machine is similar to normal use with a strimming line, except the brush is kept in contact with the ground the whole time. When up to full speed it is very simple to control and lifts the moss with relative ease. The Weedgo Two features two replaceable brushes that can be released and replaced without tools.

It is advisable to use the brush for smaller tasks and away from windows etc, as the head is spinning very fast and can throw stones. Steel or Nylon brushes are available.

**Weedgo! Two Kit**

Kit includes;

- 1) Weedgo 2 Head for 20mm and 25.4mm strimmer head connection
- 2) 4 x Brushes
- 3) Brush installation tool
