

Weedgo-series Weedgo! QuickPro

£450

Strimmer Head Connection

This product will fit brushcutter with

- Head Connection:** 20/25.4mm
- Shaft Diameter:** 26/28/30/32/36/38mm
- Engine Size:** 35 cc minimum
- Output Shaft Power:** at least 2.5 hp (1.8 kW)

The WeedGo! is designed for removal in smaller areas and around tricky obstacles like benches or railings, which are difficult to access with a larger weedbrush. It is really easy to carry as an extra tool with your brushcutter, taking up little extra space.

The 15-year success story of the original weed brush continues! The new Weedgo®!QuickPro scores with fast and tool-free changing of the bunches and an improved brushcutter socket. The Weedgo! QuickPro is a weedbrush attachment that fits your brushcutter or strimmer. The weedbrush allows clearance of moss and weeds from hard surfaces such as tarmac or block paving.

Operating the machine is similar to normal use with a strimming line, except the brush is kept in contact with the ground the whole time. When up to full speed it is very simple to control and lifts the moss with relative ease. It is advisable to use the brush for smaller tasks and away from windows etc, as the head is spinning very fast and can throw stones. The Weedgo Pro features three replaceable brushes that can be changed in a few seconds without tools. Steel or Nylon brushes are available.

Weedgo! QuickPro Kit
