Bracket for ride on mowers

Specification

- 70 Litre capacity
- For Spreading Salt or Sand and other free flowing material
- Hydraulic drive from the FKDR Linkage
- Manual spread volume control
- Spreading width of 0.5-4 metres
- Damp Material Agitator
- Stainless Steel Hopper
- AK-SLDST-H Bracket required to suit mower

The SLDST 70 Powered Gritter/Spreader is a professional spreader that can deal with different material types. The hydraulic drive makes it easier to operate and minimises maintenance.

Operating the machine is as simple as one lever, the operator controls the operation from the FKDR control console. The ability to use it with your ride on mower makes it perfect for small- to medium-sized jobs like icy walkways and long, snowy driveways.

The damp material agitator allows it to spread a more diverse range of materials more easily than other systems, getting the job done faster and with less manual intervention - giving you more time on the job and less time fixing problems.
