SITE MAINTENANCE EQUIPMENT

ATTACHMENTS

K 2100 POWER UNIT

K 2100 Power Unit

The Kersten K 2100 provides a professional medium weight hydraulic two wheel power unit. The versatile self-propelled machine features the Kersten Quick-Attach70M system that allows the various implements to be changed in seconds without the use of tools. The K 2100 further advances the quest for high operator comfort with low noise <82dB and vibration levels 1.6m/s².

A 9hp Honda GX270 270cc engine and Kersten's own hydraulic transmission system keeps maintenance to a minimum and reliability to a maximum. This is the perfect site maintenance machine for councils and SMEs requiring a reliable and hard working professional level power unit.

300kg axle load - W 75cm - L 140cm H 120cm - Adjustable handlebars with 3 settings - weight 120kg - 14L/min hydraulic pump - max angle 15 degrees.

SWEEPER

EFKM 10037H-KU70 Sweeper

100cm Sweeping attachment for Debris and detritus removal on hard surfaces - height adjustment on castor wheels and spindles - 70 mm quick connection system -spiral pattern 5 row brush - angling left and right - side driven by hydraulic motor.

The 5 row spiral sweeper has been thoughtfully designed for heavy duty sweeping of debris and soils with less effort. It is fully adjustable in height and angle, for coping with different surfaces such as artificial grass and block paving.

100 510 037 Spare Brush

GUSPL 100 Brush Guard

The brush guard keeps debris close to the brush and prevents dust or spray being blown back at the operator.

SSB 100 K Collector Box

The Poly Ethylene collector box is robust and durable. The carry handles make it easy to empty and the castors allow it to follow the contours with the brush, giving a more consistent finish.

SSB 100K-KR Filtration Box

The light weight steel sports collector allows the brush to collect detritus and litter on artificial surfaces, while allowing the sand or rubber infill to fall back into the surface, making artificial pitch maintenance simple.

ASH 403237 Gully Brush

The Gully brush sweeps debris away from edges into the path of the main brush for collection. This allows the sweeper to achieve a crisp finish along kerb edges and walls for real kerb appeal.

105 425 400 Spare Brush

ATTACHMENTS

WEEDBRUSH

WKB-H-K70 Weedbrush

40cm Weedbrush attachment for moss and weed removal on hard surfaces - 8 replaceable versa brush sections - height adjustment on castor wheel and spindle - 35 mm quick connection system - 12kg weight to apply pressure - angling left and right - 5 forward/aft settings.

The Kersten weedbrush is ideal for removing moss and also much harder weeds on all sorts of hard surfaces, including block paving, tarmac and concrete. The precise adjustment allows it to get between gaps and crevasses in the surface..

700 000 135 Spare brushes

8 spare brushes are required for a set.

FOLDING PRESENTATION BRUSH

KRB 250 KU 70 Folding Brush

250cm Presentation Brush for lifting the nap on artificial surfaces - height adjustment on castor wheels and spindles - 70 mm quick connection system -folding brushes - container for weights - support stand.

The folding Presentation brush is designed for easy access into tennis courts and other sports surfaces that require frequent maintenance after heavy footfall. The brush redistributes the surface infill and stands up the pile to create an even playing surface and promote good drainage.

100 510 080 Spare brush

3 spare brushes are required for a set.

SULK- SWH Sulkey Seat

Trailed seat towed behind the power unit

RECIPROCATING KNIFE MOWER

DOME 090 H-K70 Knife Mower

90cm Reciprocating knife mower for grass conservation - 70 mm quick connection system -hydraulic drive - balancing weights - 2 adjustable skids - ESM Blades. .

The Reciprocating blades are designed to cut the grass cleanly near the base of the plant. The grass then falls backwards over the blade and the stem of the plant is left intact. This makes the knife mower ideal in conservation areas or for cutting grass used for animal feed or bedding.

ATTACHMENTS

SNOW PLOUGH

SCHN100FK-MS-KU 70 100cm Snowplough

100cm Snow Plough attachment for snow clearance on paths and car parks - replaceable Urethane edge - height adjustment on mushroom skids - 70 mm quick connection system - 12kg weight to apply pressure - angling left and right - 45cm blade height.

The Kersten snowplough is great for clearing access paths or parking bays, so that your business can continue as usual despite the snow. additional accessories such as the wheel weights and snow chains add traction, making the job much easier.

BROADCAST SPREADER

SLDST 70H-K 70 Spreader

70 litre broadcast spreader for winter maintenance and all season spreading - spread width adjustment 0.5m - 4.0m - 35 mm quick connection system - simple flow regulation - damp material auger - support stand.

The Broadcast spreader is built for handling tough salt and winter conditions, but it is also precise enough for all season application of sand on artificial pitches or block paving. The damp material auger is great for most common salt and sand types.

ADP-SLDST Hopper Cover

Keeps the material dry.

THERMAL WEED REMOVER

TWB 100K HOAF thermHIT100K

HOAF is a market leader in the field of ecological vegetation control in public places and in agriculture. Thanks to years of experience with burner technology and the wide range of products,

The 100cm Hoaf Infra Plus System uses infrared radiation in combination with hot air. 12kg LPG tank - 82Kw - Battery ignition - 3000m² at 3km/h.

By exposing the unwanted vegetation to this process, the proteins in the weeds congeal and the moisture cells burst open at about 80°C. As a result the vegetation starts wilting and dies.

ATTACHMENTS

CYLINDER MOWER

CM976 MULTIH-K70 Cylinder Mower

The Kersten 76cm cylinder mower is a compact attachment for municipal grass cutting tasks. The narrow design makes it possible to maneuver through narrow gateways behind social housing.

The hydraulic motor is mounted over the machine to further reduce the width. Height adjustment can be finely set on the precision adjusters.

The 6 blade cylinder gives a close cut of the grass, for healthy regrowth and a roller follows the blades to give the traditional striped finish.

RECIPROCATING BRUSH

RPB100 Reciprocating Brush

Need to maintain hockey, rugby, football, multi-use games areas, tennis courts, MUGA or athletic tracks? Then Kersten have a great range of solutions for you.

The 100cm Reciprocating brush is ideal for rejuvenation of artificial pitched. The action of the brushes forces the infill to de-compact, without moving it so far as a rotary sweeper. At the same time it stands the grass fibres to stand upright, providing the correct support under foot.

The brush is height adjustable to suit different types of synthetic surface and the brush is supported by large front and rear castors.
