# THERMAL WEEDING WITH HIGH VELOCITY HOT AIR

FOR PROFESSIONALS

## LIGHTWEIGHT AND ERGONOMIC

Thermal lance  
is only 2Kg

## RELIABLE

There is no engine,  
no moving part.

## FAST

Instantly treats 40cm thanks to the  
fan-shaped heat diffuser, and up to 2m  
when used in the harness mode.

## ADVANTAGES OF RIPAGREEN THERMAL LANCE

- Runs on 94% ambient air and 6% gas\* (low consumption)
- Adjustable lance size
- Double safety regulator
- Adjustable power
- Quick-adjust handle
- Integrated lance holder
- 2 piezo igniters integrated into the handle
- Ultra-light and ergonomic

INNOVATION & SUSTAINABLE  
DEVELOPMENT AWARD

# RIPAGREEN THE PESTICIDE-FREE WEED CONTROL SOLUTION.

## ECONOMICAL

94% of hot air comes from ambient air and only 6% from propane\*. One of the cheapest machines to buy. Low maintenance costs.

## EFFICIENT

The thermal shock process, the Ripagreen technology and the ease of use mean optimum output with just one operator.

## SAFE

Patented technology used in various countries and validated by international certifications.

## ZERO PHYTO

Protect the environment, soil quality and people's health and safety.

## WHAT IS THERMAL WEEDING?

- Non-toxic weeding technique
- Kills weeds by thermal shock
- Allows plant cells to burst
- Dries out the plant

## THE TREATMENT

- Visible results within 48 hours
- Decreasing number of treatments over time
- Fast, comfortable treatment

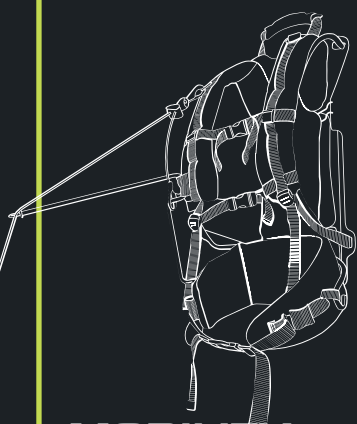

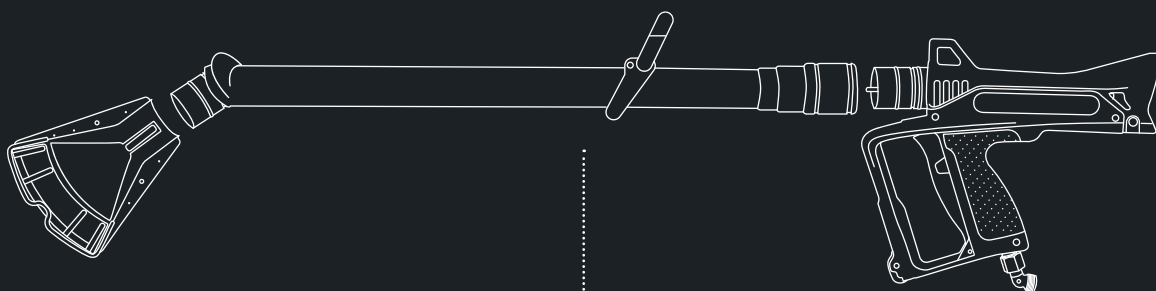

## THERMAL WEEDING VERSUS CHEMICAL WEEDING

- Respect the environment
- Operator safety (no toxic products)
- Versatility: can be used anywhere, even in sensitive areas (public spaces)
- No legal restrictions

\*These values may vary according to altitude and climate.

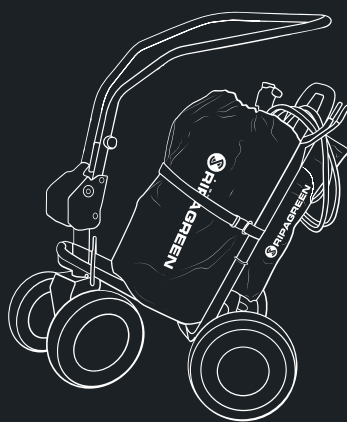

## EVOLUTIVE PACKS THAT ADAPT TO ALL TYPES OF GROUND CONSTRAINTS

### MOBILITY KIT

#### Lance + harness

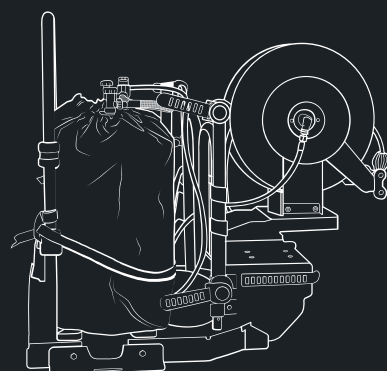

- Inflatable lumbar support
- Swivel arm
- 18 adjustment points
- 2M working area
- Treatment of hard-to-reach or sloping areas

### EASY KIT

#### Lance + trolley

- 4 puncture-proof all-terrain wheels
- Rotating stainless steel handlebars (push and pull mode) and adjustable height
- 360° nozzle orientation device
- Ideal for use along walls and around street furniture

### AUTONOMY KIT

#### Lance + chassis + reel

- Module for mounting on any type of vehicle
- Reel with self-locking system and 15m hose for greater mobility
- Perfect for treating large areas such as golf courses, parks or market gardens

### EASY KIT+

#### Lance + harness + trolley

N°1

- 4m hose for ease of movement
- 13kg bottle carried on trolley.
- Versatile application (from an extensive linear area to a complex, hard-to-reach area)

## A SEFMAT GROUP BRAND

---

The ability to develop innovative and secure products has allowed SEFMAT to create different brands in different sectors. The RIPACK® brand specialized in packaging, RIPACK SUPPLIES® in the protection of bulky industrial goods and finally, RIPAGREEN® for thermal weeding.

What all these markets have in common is a system that is unique worldwide, allowing the production of hot air over a large width with unequalled safety levels.

By investing more and more in research and development, SEFMAT is able to provide its customers with innovative and high quality products.

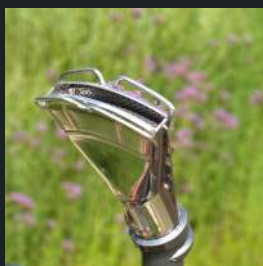

**WORLD LEADER**  
More than 400 distributors worldwide

**A RANGE TO FIT YOUR NEEDS**  
Lightweight and ergonomic, for all types of areas

**MAXIMUM SAFETY**  
Our innovations focused on your protection
