

UBS EASY 13 Power Unit

- *The UBS EASY 13 power unit's mechanical power take off (PTO) drive allows it to operate **more powerful attachments**.*
- *Hydraulic drive is still available for the attachments, which makes it one of our most **versatile** models.*
- 13hp GX340 Honda petrol engine - **quieter with less vibration** than some of our less powerful units.
- *The UBS Easy 13 can take 10 different attachments, making it a **year round** workhorse.*

UBS Easy 13 POWER UNIT

UBS Easy 13 Power Unit £6800

The UBS power unit's mechanical power take off (PTO) drive allows it to operate more powerful attachments. The hydraulic transmission features a free differential for simple operation and mobility. These machines can operate heavier duty pedestrian equipment than the K series with less operator fatigue.

13HP Honda petrol engine - 12 L/min pump at 160 bar - forward and reverse 0-6 km/h - up to 15 degree slope - 300 kg axle load - adjustable handlebar with 3 positions - 1200 - 3000rpm mechanical implement drive - W76cm - L 110cm - H 127cm - 2.7m/s vibration figure, - <82dB (Operators ear) - recoil start.

SWEEPER

EFKM 10037 M-U70 Sweeper £2250

100cm mechanical Sweeping attachment for Debris and detritus removal on hard surfaces - height adjustment on castor wheels and spindles - 70 mm quick connection system - spiral pattern 5 row brush - angling left and right - side driven by Mechanical PTO, shaft and chain.

The 5 row spiral sweeper has been thoughtfully designed for heavy duty sweeping of debris and soils with less effort. It is fully adjustable in height and angle, for coping with different surfaces such as artificial grass and block paving.

100 510 037 Spare Brush £395

GUSPL 100 Brush Guard £185

The brush guard keeps debris close to the brush and prevents dust or spray being blown back at the operator.

SSB 100 K Collector Box £625

The Poly Ethylene collector box is robust and durable. The carry handles make it easy to empty and the castors allow it to follow the contours with the brush, giving a more consistent finish.

SSB 100K-KR Filtration Box £750

The light weight steel sports collector allows the brush to collect detritus and litter on artificial surfaces, while allowing the sand or rubber infill to fall back into the surface, making artificial pitch maintenance simple.

ASH 403237 Gully Brush £950

The Gully brush sweeps debris away from edges into the path of the main brush for collection. This allows the sweeper to achieve a crisp finish along kerb edges and walls for real kerb appeal.

WEEDBRUSH

WKB 60 M-U 70 **Weedbrush** **£2450**

60cm Weedbrush attachment for moss and weed removal on hard surfaces - 8 replaceable versa brush sections - height adjustment on castor wheel and spindle - 70 mm quick connection system - angling left and right - 5 forward/aft settings.

The Kersten weedbrush is ideal for removing moss and also much hardier weeds on all sorts of hard surfaces, including block paving, tarmac and concrete. The precise adjustment allows it to get between gaps and crevasses in the surface..

700 000 135 **Spare brushes** **£9.95**

8 spare brushes are required for a set.

FOLDING PRESENTATION BRUSH

KRB 250 KU 70 **Folding Brush** **£2200**

250cm Presentation Brush for lifting the nap on artificial surfaces - height adjustment on castor wheels and spindles - 70 mm quick connection system - folding brushes - container for weights - support stand.

The folding Presentation brush is designed for easy access into tennis courts and other sports surfaces that require frequent maintenance after heavy footfall. The brush redistributes the surface infill and stands up the pile to create an even playing surface and promote good drainage.

100 510 080 **Spare brush** **£99**

3 spare brushes are required for a set.

SULK- SWH **Sulky Seat** **£950**

Trailed seat towed behind the power unit

LEAF AND WASTE SUCTION

LBAS-M-U 70 **Leaf and Waste Suction** **£4150**

80cm suction nose for leaf and waste management with height adjustable suction funnel. Mechanically driven with 280 liter capacity catch bag with a maximum load weight of 12kg.

ABF-LBAS-KU 70 **Mounting Flange** **£Incl.**

Mounting flange for leaf blower

SGSL 300 **Wander Hose** **£475**

Perfect for more versatie leaf suction. 3m flexible tube and handle.

ATTACHMENTS

SNOW PLOUGH

SCHN100FK-M-KU 70 100cm Snowplough **£925**

100cm Snow Plough attachment for snow clearance on paths and car parks - replaceable Urethane edge - height adjustment on mushroom skids - 70 mm quick connection system - 12kg weight to apply pressure - angling left and right - 45cm blade height.

The Kersten snowplough is great for clearing access paths or parking bays, so that your business can continue as usual despite the snow. additional accessories such as the wheel weights and snow chains add traction, making the job much easier.

SCHN125FK-M-KU 70 125cm Snowplough **£975**

800 105 106 Spare Blade **£45**

RGW 400X8 Wheel Weights **£320**

SCHNK 400X8 Snow Chains **£85**

BROADCAST SPREADER

SLDST 70M-U 70 Spreader **£2350**

70 litre broadcast spreader for winter maintenance and all season spreading - spread width adjustment 0.5m - 4.0m - 35 mm quick connection system - simple flow regulation - damp material auger - support stand, PTO drive.

The Broadcast spreader is built for handling tough salt and winter conditions, but it is also precise enough for all season application of sand on artificial pitches or block paving. The damp material auger is great for most common salt and sand types.

ADP-SLDST Hopper Cover **£120**

Keeps the material dry.

THERMAL WEED CONTROL

TWB 100K HOAF thermHIT100K **£6350**

HOAF is a market leader in the field of ecological vegetation control in public places and in agriculture. Thanks to years of experience with burner technology and the wide range of products,

100cm width - electric ignition - 100 KW - 500 M²/hour capacity - 8kg/hour gas consumption.

By exposing the unwanted vegetation to this process, the proteins in the weeds congeal and the moisture cells burst open at about 70°C. As a result the vegetation starts wilting and dies.

ATTACHMENTS

FLAIL MOWER

SCHLM 65 M-U 70 Flail Mower £3600

The truly dedicated commercial flail mowers designed to be compact power houses of grass cutting. Well balanced for Low vibration, low noise, high output. Superb operator comfort.

Spiral system of boot or Y type flails allow easy cutting of large volumes of grass or dense vegetation. Narrow width

With the new transmission system allowing steering and on the move speed change, the flail mower must be one of the easiest to use heavy duty machines on the market.

SCHLM 90 M-U 70 Flail Mower £4000

ROTARY MOWER

RCRM80M-U70 Rotary Mower £1950

80cm Rotary mower has a pivoting connection, to stay close to contours. It's narrow width makes it easy to navigate obstacles such as gates and pathways.

Full width rear discharge helps even distribution of grass cuttings whilst it's low profile makes it easy to navigate under obstacles such as benches and low branches - ideal for parks and playgrounds!

RECIPROCATING BRUSH

RPB 100 Reciprocating Brush £2950

The 100cm Reciprocating brush is ideal for rejuvenation of artificial pitched. The action of the brushes forces the infill to de-compact, without moving it so far as a rotary sweeper. At the same time it stands the grass fibres to stand upright, providing the correct support under foot. The brush is height adjustable to suit different types of synthetic surface and the brush is supported by large front and rear castors.
